

Shalom

Chorus:

We will seek the shalom of the city.
We will work with each other hand in hand.
We will build and we will plant.
We will pray and we will dream.
Come, shalom, to our cities, to our land, to our land!
We will build and we will plant.
We will pray and we will dream.
Come, shalom, to our cities, to our land!

Seeking change that will last down the ages
Till our cities will blossom again,
Seeking hope in these streets filled with weeping,
Health and healing where now there is pain.
Seeking strengths that can build new tomorrows,
For we know they are here to be found.
We will love God with soul, mind, and body,
To our neighbors in love we'll be bound!

Chorus

We'll put hands to the work set before us.
All our talents and gifts we will bring.
Many faiths, many cultures together,
Till our streets with glad music will ring.
Come and join in this holy endeavor,
In this work there's a place for us all
Bringing peace and good will to our city:
This our dream, this our prayer, this our call!

Chorus (2x)
