

Love With Us [Lyrics]

[Default Arrangement] by Benjamin John Grace

VERSE 1

In the heat & in the fire
You see all that our heart desires
In the darkness & the flood
Always with us & always love
Always with us & always love

CHORUS 1

Love with us in joy & pain
Love with us in the mundane
Love with us until the end
Always only our true heart's friend
Always only our true heart's friend

VERSE 2

In confusion & questioning
When to futile thoughts we cling
When we're muddled up in shame
You insist that it's not our name
You insist that it's not our name

CHORUS 1

VERSE 3

In our aimless wandering
On the days we can't bear to sing
When we circle round & round
You remind us the lost are found
You remind us the lost are found

CHORUS 1

CHORUS 2

Love for each & every one
Oh let all Love's children come
Love for enemies & friends
Love with us until the end
Love with us until the end
