

We Make This Road

Words And Music By Brian McLaren
Copyright 2016, Convergence Music Project

B/D# Ε All our road's before us Bsus4 All familiar paths lie far behind us. B/D# Our map's here in our hands Bsus4 But we have ventured past its tattered edges. We're following a call that echoes, F#m Beckons deep in breath and bone. We have only faith to guide us, F#m And this fire that glows inside us We make this road by walking ... We make this road by walking.

There are so many pressures
To depress, oppress, and stress the soul. And
endless complications
Leave us staggering in a dizzy spin. But
we're following a luminescent star Of
ancient memory.
We have only hope to guide us, And
this wind that blows inside us.
We make this road by walking. We make this road by walking.

B E B E
Step by step, mile by mile
B E F#m B
We may look back, but there is no returning
B E B E
We may wander for a while
B E F#m B

But through it all, we'll just keep on learning ...

B E C#m B
We make this song by singing ...
B E C#m B
We make this life by living ...
B E C#m B
We make this road by walking.

The road we walk is love for you And love as for ourselves for neighbors. The road we walk is peace with you, And harmony with all your creatures.
