We're together in this.
Sure, we've got our own politics.
Sure, we've got our own religions.
But we're still together in this.

We're together in this.
Sure, we've got our own set of problems.
Yeah, we've got our own things we wanna change
But we're still together in this.

***I'll carry your weight brother (sister), and you'll carry mine.
We'll leave the battle far behind.
Let love and peace become all that we need, oh...
'Cause we're still together in this.***

We're together in this.
Put away your blood and your violence.
Rest in solitude and silence.
'Cause we're still together in this.

Chorus
