There is plenty of food on this beautiful earth,
Plenty of water and plenty of air.
There's enough for us all, but there's only one way:
Only if we learn to share.

God, we pray, open our eyes.

God, we pray, teach us how to share.

God, we pray, open our hearts.

Teach us what it means to share.

There are too many people going hungry today,
And some have so much that they just throw it away.
There's enough for us all, but there's only one way:
Only if we learn to share.

Chorus
