# This Is Us

Christian McIvor

## Verse 1 - Solo

I might not know the situation you're in  
And we might not share the same color or shade of skin  
But in this space we've got nothing to hide  
'Cause we're digging deeper, and looking further inside

## Verse 2 - Solo

Some of us are constantly oppressed  
Out there in the world, every single day is a test  
But here, black, white, brown, or LGBTQ  
I'm free to be me and you can be fully you

## Refrain - All Sing (Below)

## Verse 3 - Solo

We may have come here from nations far away  
And all of us have struggled in our own way  
But here, we break bread together and give  
what we're able  
And there's a place for everyone at the table

## Refrain - All Sing (Below)

## Bridge - Solo

But we all carry something in common, that's  
Brought us together on this day  
We're all just trying to live and learn as  
Faithful followers of the Way...
