O Great Lover who pursues us, come delight to stir our hearts

D G A F#m Bm A D
Call us back with full devotion Kindle now your fire in us

Let us scent you, taste your sweetness Carry us away to thrive

D Em7 D/F# A A/G D/F# G A D
Let us love you ever deeper Let us hasten to your side

D G A F#m Bm A D
Bounding o'er the hills you beckon, "Rise, my love and come away".

D G A F#m Bm A D
Winter's past and Spring is blooming Now has come the time to sing

F#m Bm Em7 A D Bm G A
Wake the winds upon this garden Waft the fragrance all around

D Em7 D/F# A A/G D/F# G A D
We with joy to you belonging dance within your perfect love

D G A F#m Bm A D
Who is like our great Beloved now appearing as the dawn?

D G A F#m Bm A D
All of heav'n in grand procession praise Love's beauty bright as the sun

F#m Bm Em7 A D Bm G A
Set us as a seal upon you Troubled hearts will find their rest

D Em7 D/F# A A/G D/F# G A D
Yours is love to stand harsh waters, love that lives as strong as death
